

Little Link Server

A lightweight, open source, and self-hosted alternative to linktree in a Docker container from Techno Tim

- [Docker Compose](#)

Docker Compose

Here's the base docker-compose I used to get my Little Link server set up.

```
---
version: "3.0"
services:
  littlelink-server:
    image: ghcr.io/techno-tim/littlelink-server:latest
    # dockerhub is also supported timothystewart6/littlelink-server
    # image: timothystewart6/littlelink-server:latest
    container_name: littlelink-server
    environment:
      - META_TITLE=Techno Tim
      - META_DESCRIPTION=Techno Tim Link page
      - META_AUTHOR=Techno Tim
      - META_KEYWORDS=HomeLab, CSS, HTML, Engineering
      - LANG=en
